Subject:- LIVESTOCK - Fodder preservation of green grass in South Kanara district - Recommendation of the Livestock Improvement Board Orders passed.

Read:- Govt.Memo No.16986-A.IV/55-1, dated 12-3-1955
From the Director of Animal Husbandry Roc.No.3226/B3/55 dated 16-11-1955.

ORDER:

In pursuance of the recommendation of the Livestock Improvement Board at its 32nd Meeting held at Idyakkottai, the Director of Animal Husbandry has submitted a scheme to encourage individual ryots or groups of ryots in selected areas in South Kanara District to preserve fodder by the silage method during 1956-57. The scheme envisages payment of a subsidy of Rs.20/- for each silo pit (the dimensions of which should not be less than 10' x 6' x 6') and of Rs.5/- for each stack with an estimated content of not less than a ton of hay. The Director of Animal Husbandry has proposed to work the scheme in Bangalmar, Kudla, Byndoor blocks of Kundapur area and in Moodbidri and Mangalore blocks of Mangalore area. He has estimated the number of silo pits and hay stacks to be subsidised at 50 each, the total expenditure coming to Rs.1250/- as detailed below:

| | |
|---|---|
| i) Subsidy for 50 silos @ the rate of 20 per silo | Rs. 1000 |
| ii) Subsidy for 50 hay stacks @ the rate of Rs.5 per stack | 250 |
| Total | Rs. 1250/- |

The Director of Animal Husbandry also stated that more ryots are likely to come forward to avail themselves of the subsidy. He has therefore requested the Government to accord sanction to incur an expenditure of Rs.1500/- for implementing the scheme during the year 1956-57.

2. The Government accept the recommendation of the Director of Animal Husbandry and sanction an expenditure of Rs.1500/- for implementing the scheme referred to in para 1 above during the year 1956-57.

3. As the preservation of fodder by the silage method is little known to the ryots it is considered that the grant of a subsidy may not help much unless the ryots are acquainted with the method of putting up the silo pits. The Director of Animal Husbandry is therefore requested to help the ryots in this regard.

4. The Director of Animal Husbandry should submit a report as to the working of the scheme in 3 months time.
